

ROOT CAUSE ANALYSIS

Why did GMV drop
27% week-on-week?

A structured 5-layer decomposition built from SQL analysis
using SQL · Python · Pandas on real order data.

DATASET	gmv_drop_analysis.csv
PERIOD	Mar 30 – Apr 12, 2026
FINDINGS	3 confirmed, 1 root cause

Data validated • Drop confirmed

SANITY CHECKS – ALL PASSED

168 rows per week — no data gaps

2 platforms × 4 categories × 3 regions × 7 days

Zero duplicate dimension combinations

date + platform + category + region all unique

Zero null values across all 8 columns

gmV, orders, sessions — fully populated

No GMV per order outliers detected

no zeros, no values above ₹2,000 threshold

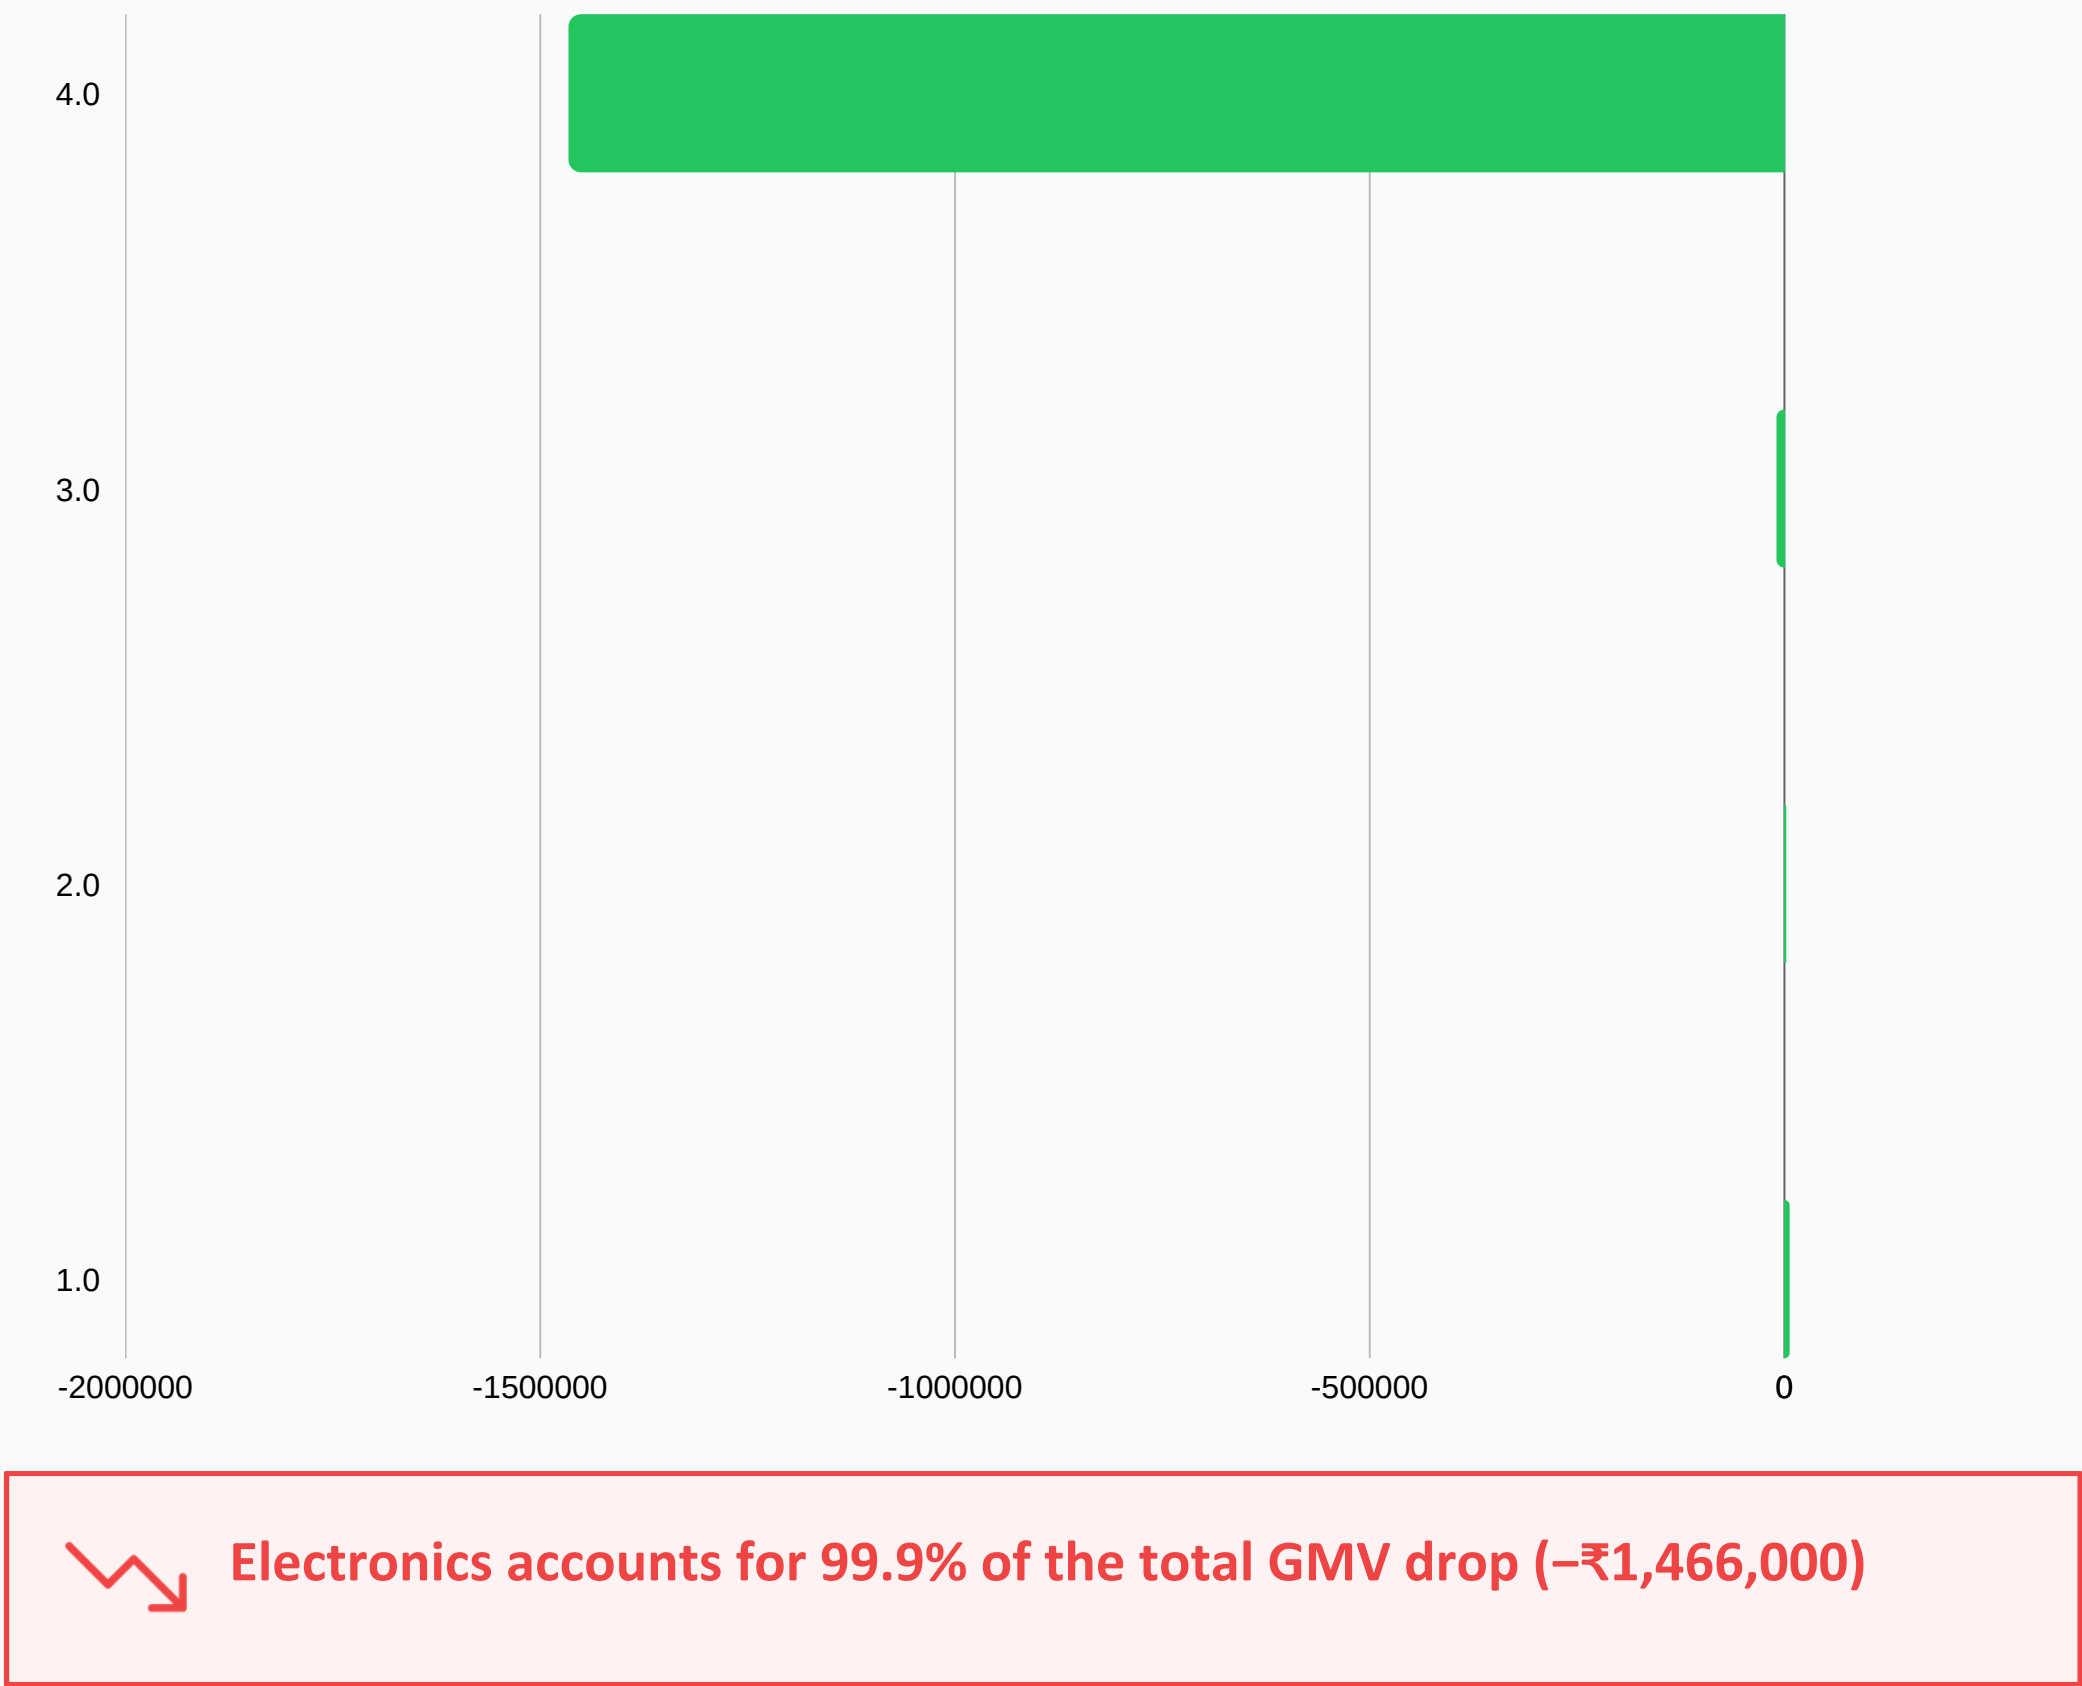

WEEK-ON-WEEK SUMMARY

Metric	Mar 30–Apr 5	Apr 6–12	Change
Total GMV	₹5,444,660	₹3,977,460	–26.9%
Sessions	670,813	664,684	–0.9%
Orders	23,449	20,502	–12.6%
AOV	₹232	₹194	–16.4%
Conversion %	3.50%	3.08%	–0.42pp
Rev / Session	₹8.12	₹5.98	–26.4%

Sessions barely fell (–1%). Both AOV and orders dropped — compound issue.

Category decomposition — Electronics culprit

ELECTRONICS DRILL-DOWN

Metric	W1	W2
Sessions	170,254	164,654
Orders	8,497	5,565
GMV	₹4.25M	₹2.78M
AOV	₹500	₹500
Conv %	4.99%	3.38%
Rev/Session	₹24.95	₹16.90

ELECTRONICS DROP BY REGION — UNIFORM

APAC	-38.3%
EMEA	-33.6%
North America	-31.6%

Uniform drop → not geo-specific

Platform split — Android is the smoking gun

Sessions held steady (-1%) on Android — users arrived but couldn't complete checkout. Bug introduced Apr 8 on Android, affecting Electronics high-value orders only.

Root cause & recommended actions

5-WHY CHAIN

1

Why did GMV drop?
Electronics GMV fell –₹1.47M WoW

2

Why did Electronics GMV drop?
Conversion halved: 4.99% → 2.73% from Apr 8

3

Why did conversion collapse?
Android orders crashed –63.5%; iOS held at –6%

4

Why only Android?
Platform-specific bug — sessions stable, orders fell

5

Why from Apr 8 specifically?
Bad Android release deployed Apr 8 broke checkout

RECOMMENDED ACTIONS

NOW

Hotfix or rollback Android app
Revert to pre-Apr 8 build or patch checkout flow.
Electronics checkout on Android is broken. Est. GMV recovery: ₹1.32M/week.

THIS WEEK

Add daily platform conversion alert
Trigger when Android conversion drops >15% vs prior week. Prevents 6-day detection lag as seen in this incident.

THIS MONTH

Build platform × category dashboard
Power BI report tracking rev/session by platform daily. Self-serve so PM and engineering get early warning without data team.
